

Questions to Consider During Data Analysis

What are general impressions about the lesson taught?

Are there any recurring patterns, positive or negative?

What occurred in the classroom and when?

How did the instructor differentiate his/her instructional strategies?

Did the instructor demonstrate particular areas of strength as related to the APSs?

Are there areas for potential growth as related to the APSs?

How well did the instructor meet the objectives of the lesson?

What are the major “take-aways” the mentee should glean from the conversation?
